About Me

Motivated and detail-oriented B.Tech Computer Science student (3rd year) with strong programming, problem-solving, and full-stack development skills. Proficient in Java, Python, SQL, and the MERN stack, with **300+ problems solved on LeetCode** and a contest rating of **1300+**. Passionate about building scalable applications and continuously sharpening algorithmic thinking. Seeking internship or project opportunities to apply technical expertise and deliver innovative solutions.

Education

B.Tech in Computer Science — IMS College, Ghaziabad

2023 – 2027

Current Percentage: 80%

12th Standard — Priyanka Modern School

Percentage: 78.4%

10th Standard — Priyanka Modern School

Percentage: 75%

Technical Skills

Languages: Java, Python

Web Development: MERN Stack (MongoDB, Express.js, React.js, Node.js), Streamlit

Databases: SQL, MongoDB

Core CS: Data Structures & Algorithms, Object-Oriented Programming, Problem Solving

Libraries / Tools: NumPy, Pandas

Machine Learning: Basic concepts and Python implementation

Competitive Programming: LeetCode — 300+ problems solved, Contest Rating 1300+

Soft Skills: Quick Learning, Time Management, Attention to Detail

Projects

Public Transport Feedback System

MERN Stack

Full-Stack Web Application

- Developed a real-time platform enabling commuters to report issues and submit structured feedback on public transport services.
- Implemented complaint-tracking features covering passenger misbehaviour, scheduling delays, and service quality, with role-based dashboards.
- Built a RESTful API with **Node.js** and **Express.js**; persisted data in **MongoDB**; rendered the frontend in **React.js** for a responsive user experience.
- Designed efficient data-retrieval pipelines enabling near-real-time monitoring by transport administrators.

Achievements & Competitive Programming

- Solved **300+** problems on LeetCode spanning arrays, strings, binary trees, graphs, and dynamic programming.
- Maintained a LeetCode contest rating of **1300+** through consistent weekly contest participation.
- Practising advanced DSA patterns (sliding window, two-pointer, backtracking) to target a rating of **1600+**.

Certifications & Training

- **SQL Certification** — AI For Techies
- Data Structures & Algorithms using **Java** (ongoing practice)
- Full-Stack Web Development — **MERN Stack** and **Streamlit**
- Data Analysis with **Python**, NumPy, and Pandas
- Machine Learning — concepts and Python implementation
